Which Ministry Activities & Resources **EXTEND the Kingdom?**

Most of our missional activities and financial support are directed toward two areas:

99.7%

Building & Maintaining the Church Where It Is

0.3%

Extending the Reach of the Church

The Issachar Initiative helps bring focus toward the areas of the world where the Church is NOT. We call this **EXTENDING the Kingdom**.

Kingdom **EXTENDING** Ministries

Consider increasing the amount of resources given to ministries that help to:

1. **Translate the Bible** for language groups that have no Scripture.
2. Send pioneer workers into **Unengaged, Unreached People Groups** that have no church.
3. **Launch ministries of evangelism** and discipleship directed toward those individuals who have been the most neglected—i.e. Muslims, Hindus, Buddhists, Secularists, etc.
4. Train and **equip the global Church in “storying”** the Gospel to reach 70% of the world’s population who are oral learners.
5. **Plant churches** in geographical areas where there are none.
6. Provide support to the above objectives through prayer, mobilization, research, and compassion ministries.

Pray about helping to **EXTEND** the Kingdom by:

1 **Using your influence** with churches & organizations to help send workers to where the Church is not present.

2 **Using your expertise,** training & vocation to help solve the biggest problems preventing the fulfillment of the Great Commission.

3 **Using your designated giving** to **EXTEND** the Church into new areas.
